In Havana more than most cities you need an inside track to heighten your experience. The secrets of where to go and how to have fun here aren't widely available.

Havana Concierge gives you the inside edge on what to do and where to go, and then books your place and connects you to the very best Havana has to offer.

Our Havana-based English speaking concierges are available on e-mail, phone, Blackberry Messenger, and Whattsapp – 7 days a week from 9am to 9pm local time.

We will make table reservations, let you know what live music is playing, and help you plan the very best use of your time while in Havana.

Our service gives you the *inside edge!* Plus we'll give you our exclusive download, **Toby's Tips on Havana**. The definitive guide on what to do, and where to do it, in Havana.
